OBJECTIVE

Motivated and detail-oriented Software Engineering student with a strong interest in web development, machine learning, and database systems. Seeking a web development internship to gain hands-on experience, contribute to real-world projects, and grow as a developer.

EDUCATION

BS Software Engineering, University of Sindh (2023 – Present)

- CGPA: 3.44

Intermediate, Govt. Higher Secondary School Kaloi City (2020 – 2022)

- Grade: 84.76%

TECHNICAL SKILLS

- Programming Languages: Java, Python, C++, and JavaScript.
- Web Development: HTML, CSS, Bootstrap, JavaScript, jQuery, Python
- Databases & Tools: Oracle, Data Modeling, Query Optimization
- Core CS: Data Structures, Algorithms.

Achievements & Highlights

- Developed and deployed 10+ full-stack web projects independently.
- Built innovative solutions using AI, computer vision, and ML (e.g., Age & Gender Deductor).
- Recognized in coding contests and hackathons for creative problem-solving.
- Consistently updated skills with emerging technologies and frameworks

KEY PROJECTS

- **Akash's Bot:** A multilingual chatbot with voice input, API integration, and typing animation. Features an interactive UI with smooth transitions and modern UX design.
- **OCR Text Extractor & Image Resizer:** Web-based tools to extract text from images and resize them to a specific file size. Includes a clean UI, copy button, and background remover.
- **Object & Finger Classifier:** AI-powered app that detects and classifies fingers (for attendance) and objects (e.g., cat, car) from uploaded images or live camera feed.
- **Age & Gender Deductor:** Face detection system that estimates age and gender from images or live video using OpenCV and deep learning models, integrated into a modern web interface.
- **Currency Converter:** Real-time currency converter supporting all global currencies, featuring a sleek, responsive UI and live exchange rate APIs.
- **Clothing Website (100% Responsive):** A fully responsive fashion e-commerce website with animated UI elements, smooth hover effects, and dynamic product filtering.
- **Personal Portfolio Website:** An elegant and interactive portfolio showcasing skills and projects, deployed on GitHub Pages.

Interests

- Building cutting-edge projects and exploring new technologies
- Participating in coding challenges
- Open-source contributions and tech community engagement
- Traveling and exploring diverse cultures
